"Hello Mr. Lindo,

I really enjoyed your book Supreme Confidence For Success. I learned so much from it and now I can think and behave the way I want to. The affirmations were especially good, I practiced them out loud and it really made a difference in my attitude and motivation to succeed. And the section on fear: I never knew how many levels of fear existed and how they controlled your life. That helped me to understand why I may procrastinate doing certain tasks which must be done. And it also made me realize why I have avoid things that I want, things that would bring me pleasure and I know are possible, but why haven't I acted on them – different fears.

I recommend this book to anyone who wants to know where they are going and how they want to get there. This book is a compass to the destination of your choice. However, you want to be in life: financially, emotionally, physically, and how to actually do it and not dream or fear it."

"A powerful and inspiring book. It helped me with my anxiety problem and also helped to give me back my confidence back I once had."

J.Spicer

"This book is a life changer; before I read this book I was a shy and nervous person who had no confidence. Then I began reading the book and things started to change in my life, I felt good walking in to a place as if I own it. The book taught me how I should act and feel about myself. Supreme Confidence For Success has great examples; I would recommend it to everyone."
